

## REMARKS

The abstract of the invention has been amended to refer to the method claimed in the present application. Entry of this new Abstract is respectfully requested.

The drawings are amended to insert numerals 130 and 140. These numerals, identifying the spring 130 and the camming face 140 of the cam 120, have been added in red in the enclosed copy of Figure 1. Approval of these additions to Figure 1 is respectfully requested.

Examination of the application and allowance of Claims 12-16 are respectfully requested.

With Regard,

Paul E. Hodges
